Directions: Have students cut out "sentence squares" individually. You can glue them on half sheets of paper or on full size paper.

If you use half-sheets:

If you use half-sheets, then you will most likely only be able to fit the sentence.

If you use full-size sheets:

If you use full-size sheets, you can have students draw an illustration of the sentence on the top or bottom of the page.

Other Ideas:

If you have a small class or group then each student can make one page of the book, and you can use it as a "Class Book"

You can bind or staple the book together; or just leave it apart!
